

Big Data Tools: Holy Grail of Developer Productivity

Pasha Finkelshteyn, JetBrains

Who am I

- ex system administrator
- ex developer
- ex team lead
- ex data engineer
- developer advocate for big data

Together >14 years in IT

Who are data engineers?

Responsibilities:

- Build your DWH
- Build your DMP
- Transfer and store your data

As effective and fast as possible

I know pain points of data engineering

I know pain points of data engineering

And today I'll try to solve them for you

Lots of tools

- Nobody may know everything
- Constant context switches
- No single point of work
